## CynGN to Present at the LD Micro Main Event XV

Presentation on Tuesday, October 25<sup>th</sup> at 10:30 a.m. PT

MENLO PARK, Calif., October 12, 2022 — **CynGN Inc. (“CynGN” or the “Company”)** (**NASDAQ: CYN**), a developer of innovative autonomous driving software solutions for industrial and commercial applications, today announced that the Company will be presenting at the 15<sup>th</sup> annual Main Event on Tuesday, October 25, 2022, at 10:30 a.m. PT at the Luxe Sunset Boulevard Hotel.

**Chief Financial Officer Don Alvarez and Vice President of Business Development Ben Landen** will be giving the presentation on CynGN’s business focus and technologies, recent developments, competitive landscape, addressable markets and growth strategy.

*Chris Lahiji, Founder of LD Micro, stated, “Fifteen years ago, we set out to create an event that could benefit our entire industry. It wasn’t fast or easy, but we were honorable in our dealings, and worked our tails off to ensure a wonderful time for everyone involved. Today, our community could not be larger, stronger, and more united, as we go through these difficult and turbulent times together. The Main Event is about learning, connecting, and enjoying each other, and it is a hell of a lot more fun than sitting next to your computer.”*

**Event:** LD Micro Main Event XV

**Date:** Tuesday, October 25<sup>th</sup>

**Time:** 10:30 a.m. PT

### **About Cyngn**

Cyngn is an autonomous vehicle technology company that is focused on addressing industrial uses for autonomous vehicles. Cyngn believes that technological innovation is needed to enable adoption of autonomous industrial vehicles that will address the substantial industry challenges that exist today. These challenges include labor shortages, lagging technological advancements from incumbents, and high upfront investment requirements. Cyngn addresses these challenges with its *Enterprise Autonomy Suite*, which includes *DriveMod* (modular industrial vehicle autonomous driving software), *Cyngn Insight* (customer-facing software suite for monitoring/managing AV fleets and aggregating/analyzing data), and *Cyngn Evolve* (internal toolkit that enables Cyngn to leverage data from the field for artificial intelligence, simulation, and modeling).
