

# Cyngn to Attend MODEX 2024 with Motrec, Showcasing DriveMod Tugger

Feb 29, 2024 7:05 AM

- Cyngn will be exhibiting at booth A13913, located in the Transportation and Logistics Solution Center in Hall A.

MENLO PARK, Calif., Feb. 29, 2024 /PRNewswire/ -- Cyngn (Nasdaq: CYN) will attend MODEX 2024 with [Motrec International Inc.](#) on March 11 to 14, 2024, in Atlanta, Georgia. Cyngn is thrilled to offer a sneak peek into its latest innovation at MODEX 2024: the DriveMod Tugger. For the very first time, Cyngn will debut its fully-autonomous DriveMod-enabled [MT-160](#) tow tractor from Motrec in its booth (A13913), located in the Transportation and Logistics Solution Center in Hall A of Atlanta's Georgia World Congress Center.

"Manufacturing and supply chain operations are rapidly evolving, emphasizing the heightened importance of staying at the forefront of innovation in today's dynamic landscape," said Lior Tal, the Chairman and Chief Executive Officer of Cyngn. "That's why we are excited to exhibit with our partners at Motrec to show visitors how our DriveMod Tugger, designed for efficient and safe heavy-load towing, offers organizations a clear path to enhance efficiency, agility, and supply chain resiliency within their operations. This positions us as a valuable partner for the manufacturing and supply chain decision-makers at this event."

Cyngn's [DriveMod Tugger](#) aims to improve goods transportation cost-effectively and safely. Equipped with automatic unhitching capabilities, it boasts an impressive towing capacity of over 6,000 pounds and a 54-inch turning radius.

Recognized as one of the largest premier material handling trade shows, MODEX draws over 45,000 professionals from the manufacturing, supply chain, and transportation sectors, bringing together the entire industry to provide end-to-end solutions for operations.

## About Cyngn

Cyngn develops and deploys scalable, differentiated autonomous vehicle technology for industrial organizations. Cyngn's self-driving solutions allow existing workforces to increase productivity and efficiency. The Company addresses significant challenges facing industrial organizations today, such as labor shortages, costly safety incidents, and increased consumer demand for eCommerce.

Cyngn's DriveMod Kit can be installed on new industrial vehicles at end of line or via retrofit, empowering customers to seamlessly adopt self-driving technology into their operations without high upfront costs or the need to completely replace existing vehicle investments.

Cyngn's flagship product, its Enterprise Autonomy Suite, includes DriveMod (autonomous vehicle system), Cyngn Insight (customer-facing suite of AV fleet management, teleoperation, and analytics tools), and Cyngn Evolve (internal toolkit that enables Cyngn to leverage data from the field for artificial intelligence, simulation, and modeling).
